IT STILL LOOKS SUSPICIOUS

The Greek government's story of the slaying of George Polk, American newspaperman, is that four Communists did the dirty work to promote the Communist cause. They have under arrest a Communist newspaperman and his mother, who accused two other Reds, both at large, one a prominent party official who is supposed to have done the actual shooting.

American newspapermen have not had a chance to question the pair in custody, whose trial is scheduled in Salonika. They are asked to accept the announcement of the Greek newspaperman's confession and to believe, as he claims, that the killing was done to throw the blame on the government and cause such an uproar that Marshall plan aid to Greece would be stopped.

Well, it caused a good deal of indignation for a while. The first thought in many minds was that the reactionary Greek government was at least pleased to see Polk out of the way. Had he lived, however, his expose articles and broadcasts would have continued. The consequences to the Greek government might have been much worse.

American newspapermen who remain in Greece are withholding judgment on this announced solution. There are a lot of facts they would like to gain before announcing any applicable.

ing any conclusions.

But at least the case is being kept alive. They don't propose to let it die.

CRANBERRIES AND CHICKEN

While most persons are worried about war, depression and other monumental problems, the Federation of Cranberry and Chicken Fanciers (152 West Forty-second street, New York, 18) is spending a lot of money on literature (one piece of which is just at hand) deploring the tradition that restricts cranberries to turkey at Thanksgiving and urging the public to "order cranberries and chicken.'

Pioneering gourmets are supposed to be back of this movement. No wonder they can eat well if they confine their agitation to such trivial and yet delightful subjects.

Or could it be that the cranberry people are back of this? Could be.

SWISS TOUCHY ABOUT LANGUAGE

Basel, Switzerland - (AP) - German-speaking Swiss are still extremely touchy about foreigners who look down their noses at them because they speak the same language Adolf Hitler and Heinrich Himmler spoke. Recently, a Dutch lecturer who spoke good German, chose to deliver his speech to a Germanspeaking Swiss audience here in English. The result of this "comedy," said the National Zeitung, was that practically nobody understood what he was saying since his English was very labored.

"We would like to recall to our Dutch friends," the newspaper said tartly, "that the Dutch language developed from the "Dietsch" of the middle ages and the "Low German" of the 16th and 17th Centuries and is approximately just as much and just as little German as our Swiss German dialect. For three million Swiss, high German is the school and written language, the most widely used of the four official languages of our country."

CAMPS FOR

BLACK MARKETEERS

Prague -(AP) -- Two labor camps have been set up outside Prague where persons convicted of black market activity, racketeering, and actions held inimical to the state, are confined.

Establishment of the camps was announced by the government after a campaign in the press said the Communist party, the premier's office, and the national front were receiving "scores of telegrams" from workers in factories praising the increased food ration, but asking a "resolute stand against those who try to sow discord in political and

The letters asked for special labor camps also for "those who were discharged from their posts after February for their political sins and still are unemployed." Seizure of their apartments was demanded. Such penalties already were in ef-iect in Slovakia.

Purchase of \$5,200,000 worth of industrial equipment, \$21,400,000 of industrial materials and \$4,800,000 of agricultural production supplies have been authorized for the first five months of the program.

To rebuild its factories and increase industrial production Greece will import \$110,000 worth of industrial equipment from Belgium and Germany, and \$375,000 worth from the United States.

BERLIN GHOULS BURN ROYAL COFFINS

Berlin - (P) - Berlin's ghouls have no respect for royalty. They have been plundering the graves of kaisers and princes and stealing coffin covers for firewood.

This desecration centers chiefly at the old Garrison church, near the imperial castle in the Soviet sector. The church was ruined during the war. However, in its vault are still some 200 coffins. Thieves who have broken them open apparently were searching for valuables. But the wooden covers obviously were removed for fuel.

GIRAFFE'S APARTMENT CALLS FOR SKYSCRAPER

Rio De Janeiro-(A)-Mayor Angelo Mendes de Morais, who takes a lively interest in this city's zoo, was asked by a member of congress to explain how much money he spent on an "apartment" or the zoo's new giraffe.

In a recent breadcast to his constituents, the mayor answered: "A complete apartment for a giraffe with bathroom, bedroom and kitchen would be rather expensive owing to the uncommon height of this animal. But, since the giraffe's abode will consist only of a wire fence, the problem is much less complicated than the congressman

way, with beauty, riding qualities, comfort and safety only possible because of a new "step-down" design, offered by no other automobile!

Only once in a blue moon does a car step so far ahead that it is a protected investment in motor-car value! You are invited to see just such a car—the New Hudson with "The modern design for '49"-and for years to come! Here is truly streamlined beauty-a

low-built lines that develop naturally out of a recessed floor which is the key to a basically new and exclusive design principle. The New Hudson is the only car you step down into. The development of a "step-down" zone in an exclusive, all steel Monobilt bodyand-frame permits Hudson to build the

on every conceivable kind of highway. The way in which this car takes even the sharpest curves makes it a "standout" for roadability in any year!

These remarkable riding qualities are largely due to the fact that the New Hudson provides the lowest center of gravity in any American stock car-yet road clearance is ample! It is a widely recognized fact that the lower to the ground a car can be built, the more stability it will have and the safer it will be.

Such a delightful conformity to the road, coupled with the protection of riding encircled by a sturdy box-section steel frame, gives to everyone who rides in a New Hudson a grand feeling of safe well-being! This feeling is further enhanced by the ease with which this car is operated, and by the restful quiet with which Hudson glides along-thanks to the superb sound control engineered into this advanced automobile.

See "The modern design for '49" today! Come in and let us show you the many advantages of Hudson's fabulous "step-down" design principle.

HUDSON FLOORS are recessed down within the frame (as shown above), full-height seats are lowered, so you get ample bead room in this car with the new, lower center of gravity. YOU RIPE down within a base frame (as shown above), and rear seats are positioned ahead of the rear wheels so that full body width becomes available for wonderfully roomy seats. Box-section steel girders completely encircle and protect the passenger compartment.

TRY AUTOMATIC gear shifting in forward speeds as provided by Hudson's Drive-Master transmission—by far the easiest of all ways to drive. You can accelerate as long and as fact as you like in pickup gear, then lift your toe momentarily, and you're in high. The shift into high comes only when you are ready! Button control on the instrument panel provides instant change to conventional driving if ever desired. Drive-Master transmission is optional on all New Hudsons at small extra cost.

They don't die down! Not only does Surf suds fast but it makes suds that last—no longer need hard water make washing slow. You'll really be surprised.

NO MORE YELLOWING & GRAYING

White things really white-no yellowing or graying of the fabrics. Even discolored white clothes get whiter after a washing with Surf. Just try Surf next washday.

DULL COLORS

It's safe for all pretty washables, too. Colors dimmed by hard water scum get brighter after a good washing in Surf. And Surf is kind to hands, too.

you were the President of A&P...

What would you do to make your A&P a better place to shop?

Have you ever said to yourself, "If I were the President of A&P, I know what I'd do"? I think there are many A&P customers who would like the opportunity to express themselves on the subject of their A&P. I really believe that from your side of the counter, you know A&P best. That's why I ask your opinion.

You can help to make your A&P an even better place to do all your food buying by

sending me your suggestions . . . criticisms . . . opinions. For instance, what about our service? Is it as courteous and helpful as you would like it to be? Is it prompt and efficient, too? Do you always find all items plainly and correctly price-tagged—as they should be? What in your opinion are we doing that we could do even better? Or what are we not doing that you feel we should do?

I INVITE YOU TO WRITE AND TELL ME HOW YOUR A&P MAY SERVE YOU BETTER

We of A&P want to make our stores the finest places of all in which to shop. That is why your suggestions, criticisms and opinions will be gratefully received and acknowledged. You see there are 100,000 employees of A&P from coast to coast jealously guarding the A&P reputation for courteous, honest, and efficient service. They never want to fail you in any way, but if they do, I am sure that they, as well as I, would appreciate your writing me.

The Loves of Carmen THE STORY: Don Jose, young

officer in a fashionable Spanish regiment, falls victim to the Carmen. He kills his commanding officer in a sword-fight over her and is forced to fice to a moun-tain hide-out, where he joins the band of gypsy rogues who are Carmen's associates. His last il-lusion is shattered when he learns that Garcia, the leader, is Carmen's husband. Jose remains in the camp while the others go off on an expedition. Carmen is to pick up a victim in town and lure him to a described house, where the men will beat and rob him. But Carmen changes her mind, decides to have a fling of her own. She meets and flirts with Lucas, the matador; but does not take him to be robbed. When she returns to the camp, she finds Don her it is driving him mad to know she is married to another man.
"I wouldn't be married to another man if you had used your head yesterday," she replies.

"You can choose your pastimes where you like, you filthy wench! But while I am master here, you'll work, too!" He slapped her so brutally across the face that tears came to her eyes. Don Jose went for Garcia then.

Garcia struck Carmen again with his other hand, but now she laughed. By this time Don Jose was on him. He jerked Garcia away from Carmen and spun him half way across the firelit space. Garcia fell but in an instant was on his feet again, his knife in his hand. Don Jose crouched to face

him, drawing his own knife. Garcia laughed deep in his throat.

She tossed the bone she had been gnawing into the fire. She wiped the palms of her hands slowly down the sides of her skirt. Then her eyes rose slowly, seeking Don Jose, who breathed in great, gasping gulps, somewhere out in the darkness beyond her.

LATER that night Don Jose and Dancaire buried Garcia. Dancaire said, "Two murders on your soul now-for nothing. Why didn't you just ask him for Carmen? He would have sold her to you." "Sold her!"

"Gypsies sell their women. He bought her. He married her when gypsy marriage."
